To whom it may concern:

Dear, copyright office, my name is Wyatt Enriquez-Flores. I am a 7th-grade student at Lakeside Middle School and in class, we've been learning about artificial intelligence and its copyright problem. The reason why I am writing this is because I want to share my opinion on copyright infringement and AI. I feel like the copyright infringement issue is a very difficult situation to deal with. I think that AI should show its sources or people learn how to code where it shows where the sources are from. I think it would help us move on from this problem. I await your response and appreciate your dedication to addressing the evolving challenges in the realm of copyright.

Sincerely,

Wyatt
